

Unlimited Snack Solutions

SunOpta™ produces a wide range of ingredients for the snack food industry designed for great taste and superior functionality. Our fully integrated operation monitors and controls the processing of all products—from seed to table.

SunOpta offers organic and Non-GMO milled flours, expeller oils, dairy & cheese powders, maltodextrins, tack blends and coating and flavor systems. Our technical services team can work with you to refine one of our existing ingredient formulations or develop a new custom product specifically for your application.

We also offer a full line of premium raw or roasted products, including SL®80 high oleic sunflower kernel, confection and bakery kernel, inshell sunflower, soy nuts, corn, and custom milled products.

Our processing plants use the latest technologies, utilizing targeted controls, raw material tracking and traceability programs to produce high quality products that satisfy customers' specifications. Product can be sent in totes, foil-lined boxes, poly-lined paper bags, poly or metalized pillow packs or pouches.

Superior
functionality,
exceptional
taste...
naturally!
