INGREDIENTS FOR SUCCESS

SunOpta Ingredients Group focuses on transforming a variety of natural and sustainable grain and plant-based raw materials into value-added food ingredient solutions. We specialize in the technical processing of food ingredients with a focus on non-GMO, natural, functional and organic offerings.

We work closely with our customers to determine product formulation, cost and processing requirements. And, our sales and technical support team develops solutions designed to exceed your requirements with our proprietary, value-added, highly functional food ingredients.

SunOpta offers an extensive line of natural oat fibers and we also offer soy fibers, pea fibers, stabilized brans and wheat germ, beta-glucan soluble fiber, fiber blends, and specialty starches. These versatile ingredients are ideally suited for use in better-for-you, high fiber, and whole grain foods and beverages.

OUR FOCUS IS FIBER

SunOpta Ingredients Group offers a family of insoluble fibers including Canadian Harvest® Oat Fibers, SunOpta® Soy Fibers and SunOpta® Pea Fibers, as well as Canadian Harvest® Stabilized Brans and Wheat Germ. Our high quality oat, soy, and pea fibers, derived from crops grown in North America, are the perfect choice for increasing the dietary fiber content of your products and meeting the demand of health conscious consumers.

Our family of fibers also includes the soluble fibers Barley Balance™ Beta-Glucan Concentrate, SunOpta® Agave Inulin, and MultiFiber™ insoluble and soluble fiber blends.

In addition to nutrition and health benefits, our fibers enhance texture, increase yield, extend shelf life, control moisture, and improve strength and flexibility. SunOpta's line of fiber products comes with a solid reputation for consistent quality and the technical expertise needed to incorporate them into all kinds of foods and beverages.
