INGREDIENTS FOR SUCCESS

SunOpta Ingredients Group focuses on transforming a variety of natural and sustainable grain and plant-based raw materials into value-added food ingredient solutions. We specialize in the technical processing of food ingredients with a focus on non-GMO, natural, functional and organic offerings.

We work closely with our customers to identify product formulation, cost and productivity requirements. And, we develop solutions designed to exceed your requirements with our proprietary, value-added, highly functional food ingredients.

SunOpta offers an extensive line of natural oat fibers and we also offer soy fiber, stabilized brans and wheat germ, beta-glucan soluble fiber, fiber blends, specialty starches and ingredient systems. These versatile ingredients are ideally suited for use in better-for-you, high fiber and whole grain foods and beverages.

OPPORTUNITY. IT'S IN OUR FIBER.

SunOpta Ingredients Group offers the Canadian Harvest® Oat Fiber family of insoluble fiber products, as well as a line of SunOpta™ Soy Fibers. Our high quality oat and soy fibers, derived from oats and soybeans grown in North America, are the perfect choice for increasing the dietary fiber content of your products and meeting the demand of health conscious consumers.

New to our portfolio of fibers is Barley Balance™ beta-glucan soluble fiber and MultiFiber™ insoluble and soluble fiber blends.

In addition to nutrition and health benefits, our fibers enhance texture, increase yield, extend shelf life, control moisture, and improve strength and flexibility in baked goods, snacks, meats, pasta and more. SunOpta's line of fiber products comes with a solid reputation for consistent quality and the technical expertise needed to incorporate them into all kinds of foods and beverages.

THE SUNOPTA FAMILY

SunOpta is focused on environmental responsibility and the health and well-being of our communities. The SunOpta groups, products and locations are listed on the back of this brochure. SunOpta is traded on the **Nasdaq – STKL**, and the **Toronto Stock Exchange (TSX) – SOY**.
